This almost 100-meter family apartment with a southwest-facing loggia and 2 bathrooms is part of the modern ZORA Harrachov project, which brings a fresh perspective on mountain living. The popular resort, located amidst the beautiful nature on the border of the Jizera and Krkonoše Mountains, offers excellent skiing conditions in a modernized ski area that will allow skiing from December to April. The completion date is planned for Q3/2027.

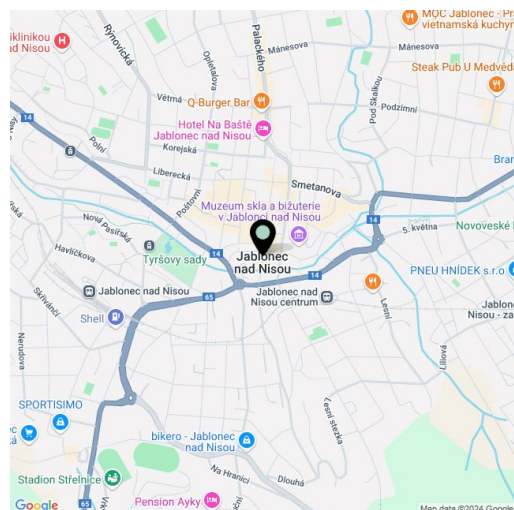

The area of the 2nd floor apartment consists of a living room with a preparation for a kitchen, 3 bedrooms, a bathroom (with a toilet and a **walk-in shower**), the second bathroom (with a toilet and a **bathtub**) and a hallway. It will be possible to enter the **spacious loggia** from the living room.

Facilities include large **French windows** with **aluminum** frames, wooden interior doors, vinyl floors, large-format tiles, **underfloor heating**, a **recuperation unit**, and a preparation for air-conditioning and shading. The price includes a **cellar**, and a **garage parking space** can be purchased. Residents will have access to a spacious **ski/bicycle storage room** and a **common room** with a kitchen.

The project is located near the forest in a quiet part of Harrachov. Thanks to the planned return of **international ski jumping competitions**, the entire resort is currently being gradually modernized. The rich offer of local activities is further expanded by the nearby **Polish Polana Jakuszycka sports complex**, the starting point of **cross-country trails** connected to the **Jizera Highway**. Harrachov is easily accessible, and the drive from the outskirts of Prague takes about an hour and a half. Direct bus connections are also available.

Floor area 95.16 m<sup>2</sup>, loggia 10.2 m<sup>2</sup>.

For a complete overview of the units and additional information, please visit the project's website at [www.zoraharrachov.cz](http://www.zoraharrachov.cz).

\* Area of the unit according to the Civil Code. The area consists of the sum total area of the entire unit bounded by perimeter walls.
