Another benefit is the residential project's location—in close proximity to the heart of Bratislava and at the same time within walking distance of nature. The building has recently received final approval (March 2020) and is move-in ready.

The interior features an entry hall with a wardrobe and a separate toilet with a sink, a bathroom with a bathtub, a living room connected to the kitchen with a pantry and a dining area, 2 bedrooms, and a master bedroom with a walk-in closet and an en-suite bathroom with a shower and toilet. All rooms, including the living room, have access to the terrace and garden. The apartment faces east, offering views of Bratislava.

The standard of the apartment consists of wooden floors, tiles, Villeroy & Boch sanitary ware, Hansa faucets, 210 cm Sapeli interior doors with concealed hinges, a Defendoor security fire door, a video doorman, underfloor heating that can be adjusted via wireless digital thermostats, heated towel rails in the bathroom, triple-glazed aluminum windows, a preparation for outdoor motorized aluminum blinds, a preparation for air-conditioning in each room, as well as TV and Internet distribution.

This unique apartment complex at the foot of the Little Carpathians is just a hop and a jump from the city center while at the same time in a quiet area close to nature. The surrounding area offers many opportunities for cycling, summer and winter sports, and walks in Koliba's vast meadows. A private English kindergarten, a grocery store, a bakery, and popular Gaštanica Park with a children's playground spread out over 5,000 sq. m. are located within walking distance. Located in the heart of the city, the area is also popular for its proximity to nature; access to the city center is by car and public transport.

The residence consists of three new four-story apartment buildings with indoor and outdoor parking and green roofs. There is pram and bicycle storage as well as a new playground on a private fenced plot belonging to the building for residents to use.
