The dominant feature of the apartment is **an airy living room with access to a west-facing balcony** and connected to the kitchen, a dining room, and a **southeast-facing loggia overlooking the river and the greenery.** The layout also offers a spacious entrance hall, a bathroom with a bathtub, three bedrooms, one of which has an **en-suite bathroom** and another is used as a study with access to the loggia. The above-standard facilities of the apartment include **high-quality and custom-made interior elements** by a well-known architectural studio, which also include a **number of ingeniously designed storage spaces** while giving the interior a timeless, minimalist style. The fully equipped kitchen has Bosch appliances (incl. a steam oven) and a stone worktop; hardwood floors (glued). The bathrooms have concrete surfaces, large-format tiles, or stone sinks. The apartment has newly installed **recuperation and air-conditioning**. The bathrooms have underfloor heating and there are convectors in other rooms. Central heating.

Holešovice was originally an industrial district, which gradually turned into a modern place with a slightly bohemian atmosphere. The advantages of living here are mainly due to the **fast reach of the city center** by tram and metro, complete civic amenities (food, bakeries, bistros, cafes, restaurants, pharmacies, and doctors' offices), but also an art gallery, a library, a multicultural center, and fitness centers. **Kindergartens and elementary schools as well as high schools** are **within walking distance**. Not far from the building is a golf driving range. It is also close to the popular bike trail along the Vltava River.
